The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are :

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100 Reward will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fake directory.

Introductory

In presenting this Volume, the second annual edition of the Brandon City Directory, the assurance is offered that the work is equal in every respect to any work of its character, not excepting the largest metropolitan directories, for this directory possesses all the features of the largest directories that are regarded as meritorious.

The Brandon Directory has had the advantage of a large force of trained, competent and experienced directory men, and every facility was provided and maintained for making the work a model of completeness and accuracy, and it is confidently believed that the 1907 edition will prove the peer of any of its predecessors.

The City Directory is a matter of great importance to the community for it clearly portrays the city and its people and institutions and the growth and progress as no other work can. Every individual is interested and represented in it, and it is a matter of vital importance that they be accurately represented.

One of the useful features of a directory is its annual round-up and presentation of the progress of the city. It is an important matter to every individual, merchant, manufacturer and everyone interested in the welfare of the city to learn something of its progress during the year, and the data set forth in the Directory is like the merchants' trial balance. The Government realizes this, for it spends millions of dollars at regularly stated periods to gather the information that is furnished by directory publishers. It is highly pleasing to the publishers of this volume to point to the evident growth and prosperity that are apparent in every locality, even to the casual observer.

This edition of the Directory contains 5276 individual names, exclusive of firms, etc., which multiplied by $2\frac{1}{2}$ the figure that is found to accurately represent the names of women and children whose names are not included in the Directory--indicates a population of 13,190 for the year ending September 1st 1907, and it is regarded as a highly satisfactory condition of prosperity, of which everyone is proud who has the welfare of Brandon at heart.

The publishers are glad to express their thanks for the courtesies extended to their employees and for the liberal patronage bestowed upon the work.

Respectfully,
HENDERSON DIRECTORIES, LTD.
Publishers.

BRANDON FIRE DEPARTMENT.

Headquarters Princess Ave. cor 7th Street.
Chief, E. G. Wiswell
Captain, J. V. Melhuish.

The department consists of nine permanent (fully paid) firemen and twenty volunteer call men.

The equipment consists of one steamer, 2 chemicals, 2 hose wagons, one hose reel, one aerial ladder, one hook and ladder wagon, and 10 horses.

There are 95 fire hydrants distributed throughout the city. The fire pressure from the waterworks pumping station is 140 pounds with a total pump capacity of $3\frac{1}{2}$ million gallons in 24 hours. It is a direct pumping system, there being no reservoir or stand pipe. The electric fire alarm system has 26 boxes.

CITY WATERWORKS.

The waterworks pumping station is situated at the corner of 26th Street and McDonald Ave. and north of the C. P. R. track. It is $1\frac{1}{4}$ miles west from the City Hall.

Superintendent and Chief Engineer - A. W. Shaw, assistant engineers, John W. Anderson and Thomas McPhail.

The supply is taken from filter gallery and the Assiniboine River with a 40-inch intake to the pumping station which is 1000 feet south of the river. The system is what is known as direct pumping there being no reservoir or stand pipe. The plant consists of one two million gallon D'Auria high duty pump, two 1,200,000 gallon Worthington pumps, two 500,000 gallon pressure filters, operated by four 75 horse power boilers.

The engine room is 36x44 feet, filter room 36x44 feet, and the boiler room 30x44 feet. There are 1100 domestic services of which 400 are on meter, and 93 fire hydrants. A domestic pressure is maintained at 85 pounds, while for fire purposes the pressure is raised to 140 pounds at the station. The total capacity of the pumping plant is $3\frac{1}{2}$ million gallons for 24 hours.

PUBLIC WORKS AND IMPROVEMENTS.

During the year 1906, 8750 feet of water mains were laid, 4,450 feet of main trunk sewer built, 8600 feet of lateral sewers, and 7 miles of granolithic sidewalks.

The city now has 15.5 miles of water mains, 14.3 miles of sewers with about 11000 connections, 12 miles graded streets and 27. miles of granolithic and one mile of wooden sidewalks.

SYSTEM OF NUMBERING HOUSES.

The system of numbering adopted by the City of Brandon is the Philadelphia or Decimal system. By this system an even hundred numbers are allotted to each block and the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on the street or avenue.

On the avenues which run east and west a number is allotted to every twelve feet, and on streets which run north and south a number is allotted to every fifteen feet.

Odd numbers are located on the east and north sides, and even numbers on the south and west sides.

The affix "east" is used to indicate avenues that number eastward from First Street and the affix "north" is used to indicate streets that number northward from Pacific Ave.

Pacific Avenue is taken as the basis for all streets running south starting at number 1 and going southward 100 to the block to the southern limits of the City.

Assiniboine Avenue is the basis for all streets running northward starting at number 1 going northward 100 to block to the northern limits of the City.

First Street is the basis and dividing line for all avenues which run east and west. Starting at 100 and going westward 100 to the block to the western limits of the City, and again starting at number 1 and going eastward 100 to the block to the eastern limits of the City.

Rosser Avenue and all avenues running westward from First Street are intersected as follows;—

TRANSPORTATION FACILITIES.

The Great Northern Ry. Co. have selected their depot site on Pacific Ave. cor Eleventh St with freight sheds at Eighteenth Street. The company have built a road seventy miles in length which connects with the St. John's branch of the Great Northern Railway (at range 17), at a point south of Boissevain, which makes a direct short line to St. Paul, Minn., and connects with all Great Northern Railway points.

The Grand Trunk Pacific Railway survey is locating a branch from a point on their main line near Brookdale direct to Brandon, where connections will be made with the G. N. Ry.

The Canadian Pacific Railway divisional superintendent has headquarters here with supervision over 1000 miles of road. The pay roll is said to average \$100,000.00 per month. The side tracks in the Brandon yards of the C P R. aggregate 23 miles. Division shops are also here.

The C.P.R. connections are as follows; Main line east and west
 Rapid City (Minnedosa section) (via Chater 6 miles east) 46 miles

MOST advertising agents whose main argument is service, give their clients full measure, except in one respect.

THIS is the preparation of printed things, such as booklets and catalogs. The agent either ignores this phase of the matter entirely, or turns out for his client mediocre stuff.

TAKE advantage of the experience of

Henderson Brothers of Winnipeg

LET them explain by interview or correspondence what great benefits their service affords at 279 Garry Street, Telephones 7224 and 7225, P.O. Box 39

MOST successful men appear successful.

You may never see the man himself.

It is his letter-head, his envelope, his business card, his circular, or his catalogue. We size him up by that. You would not say a man was successful if he sent you a business head on wrapping paper.

The man who has made a success of business leaves the things he does not know anything about to those who are competent. John Wanamaker says that his business success has been attained by knowing where to get men who could do well what he cannot do passably.

Putting work in the hands of people who will do it in the right way ; this is the first stepping-stone to a successful man's success.

PUTTING brains into your printed matter is just as essential as to put brains into the management of your business. Too often the demands of the latter are such that you can give but little time to the former. Furthermore the production of a high-grade catalogue is a specialty and you cannot be expected to master the details of the business. It is, therefore, necessary in order to secure the kind of advertising matter that attracts attention and sells goods to summon to your aid a printer who "puts brains" into his work. As you have cuts to make, and designing of a cover or title, or running head, you do not want to be dealing with two or three different concerns, because when their product comes together in the book it will be one chance in a thousand if there is harmony in size, conception, etc. The complete builder of catalogues is the one best equipped to serve you, and it is just as essential for you to select a firm of standing and reliability whom you know to be equipped to serve you as it is to select a reliable builder of a machine tool.

WEATHER REPORT: Rain, followed by Clearing Weather and Sunshine

FROM A STUDY IN EXPRESSION

People have learned a whole lot about printing and good taste and art. As they have learned more they require more. The people are yearly more appreciative of the artistic and of the appearance of things. There are more men in business now than ever before, but there are fewer than ever who do not see the force of reason in attractive, interesting and convincing printed matter.

Henderson Directories, Limited

MOST advertising agents whose main argument is service, give their clients full measure, except in one respect.

THIS is the preparation of printed things, such as booklets and catalogs. The agent either ignores this phase of the matter entirely, or turns out for his client mediocre stuff.

TAKE advantage of the experience of

Henderson Brothers of Winnipeg

LET them explain by interview or correspondence what great benefits their service affords at 279 Garry Street, Telephones 7224 and 7225, P.O. Box 39

Don't Lend Your DIRECTORY!

The patrons of our Directory are frequently inconvenienced by

BORROWERS;

not the stranger or private citizen, who steps in, looks at the Directory, gets his information, and goes out; but by business men, who continually need it for reference, yet are **TOO MEAN** to buy one. These are the men who carry off your Directory "just for a few minutes," which generally means a few days or weeks unless you send for it before.

These same borrowers tell our Canvassers that they have no use for a Directory.
